SILL SYSTEMS

Z-SERIES SILLS

Using a patented design of all-synthetic components, the Z-Series Sill eliminates the worries of wood. Built to last, Z-Series Sills protect your entry from unsightly damage, rusted screws, discoloration, deformity, gaps and dents.

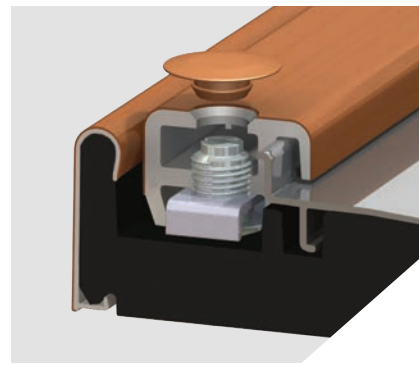

COMPOSITE SUBSTRATE

No more stuck doors or drafts because the Z-Series Sill substrate material is a waterproof composite that won't warp or rot, ever. The substrate is not affected by moisture and rot like wood.

HIGH DAM, INTEGRATED SEAL

A dual durometer cap seal overlaps the high dam. Both combine to provide a barrier to air and moisture even in the most extreme weather conditions.

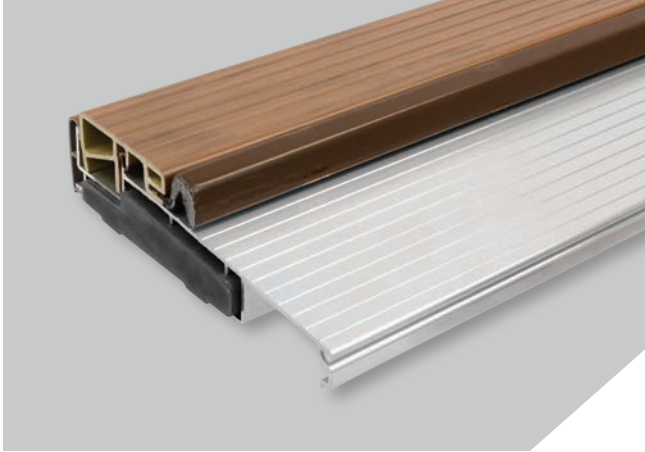

SEALED ADJUSTMENT SCREWS

Dirt and water can get into the exposed screws of other adjustable sills. Patented sealing plugs hide unsightly screws and keep water and dirt away from the adjustment mechanism, maintaining adjustability of the sill cap over time.

ULTIMATE FLIP LEVER ASTRAGAL

Patented Flush Bolt and Floating Boot system eliminates traditional sealing issues, forming a tight seal against the sill cap no matter what.

FLIP LEVER UP

In the upright position, the Floating Boot and Flush Bolt are lifted clear of the sill, allowing for easy operation of the door.

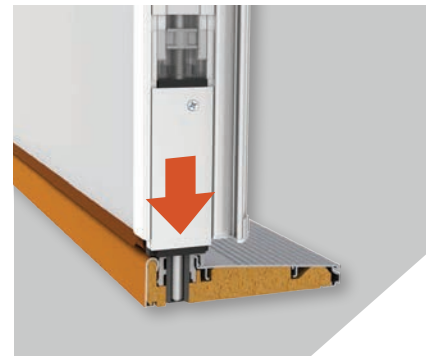

FLIP LEVER DOWN

As Flip Lever is lowered, Floating Boot forms a tight seal against the sill cap while the Flush Bolt secures the unit in place.

MULTI-POINT ASTRAGAL (MPA)

Stop fearing French doors and start experiencing what smarter installations, smarter performance and smarter savings can do for you. Auto-performance, lasting sealing power and ongoing savings come standard.

ACTIVATE FLIP LEVER, ENGAGE FLOATING BOOT

Activating the Flip Lever with a single motion provides easy system sealing - no reaching or bending. The spring-loaded Floating Boot auto-seals to fight infiltration regardless of drill hole depth.

ENGAGE DEADBOLT, ACTIVATE MULTI-POINT LOCK

The Multi-Point Astragal combines the added strength and protection of three secure sealing points to fight against infiltration and deflection. MPA also works with most standard deadbolt packages for enhanced savings.

All dimensions shown are for inswing doors. Deduct 1-1/8" from the actual door unit size, the rough opening size and the outside brickmold size height for outswing. For handicap accessible doors, see product selection detailed in the catalog to determine if the entry door style you have selected is available. Recommended rough openings for the Entry Fit. adjustable steel frame offering are different than the dimensions shown in this chart (See rough opening chart titled Entry Fit.).
